

Technical Data Sheet: HW6282

Product manual **HW6282** is a waterborne aliphatic urethane acrylate dispersion with good flexibility, good interlayer adhesion, good leveling, low curing shrinkage and good water resistance. It is especially suitable for UV waterborne coatings such as wood coatings, plastic spraying a coating of silver, plating bottom and other coatings.

Product features

- Good flexibility
- Good adhesion
- Low curing shrinkage
- Good silver powder arrangement
- Good water resistance

Recommended use

- Waterborne plastic coatings
- Waterborne wood coatings
- Waterborne vacuum electroplating primer

Specifications	Functionality (theoretical)	2
	Appearance(By vision)	Milky white liquid
	Viscosity (CPS/25℃)	≤300
	Efficient content(%)	40±1

Packing Net weight 50KG plastic bucket and net weight 200KG plastic bucket

Storage conditions Please keep cool or dry place, and avoid sun and heat;
Storage temperature does not exceed 40 °C, storage conditions under normal conditions for at least 6 months.

Use matters

Avoid touching the skin and clothing, wear protective gloves when handling;
Leak with a cloth when the leak, and wash with water;
for details, please refer to the Material Safety Instructions (MSDS);
Each batch of goods to be tested before they can be put into production.
